HOW TO SIGN UP

STEP 1:

Download the DraftKings Sportsbook and Casino mobile apps at www.draftkings.com for Android users or the Apple Store for iPhone users.

STEP 2:

Once downloaded, open either app and select "Sign up."

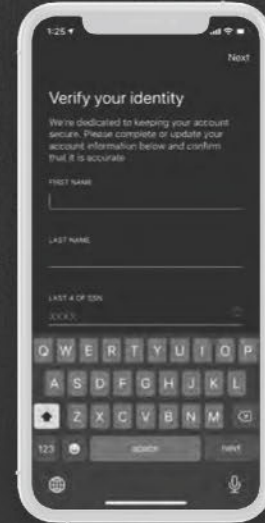

STEP 3:

"Create a username." This is how you'll appear on DraftKings and also the identity you'll use during any withdrawal/deposit transactions made at the Casino Cage.

STEP 4:

Next, you'll need to create a password for your account.

STEP 5:

You'll have to "Allow Location" so DraftKings is able to confirm you're in the state of Connecticut while using the app.

STEP 6:

"Verify your identity."

STEP 7:

"Verify your home address." This should match your current residence.

STEP 8:

Place your bets! You'll be able to easily log in on both apps using your new username and password.
